

Nature Collage Workshop

Forage in your garden for a collection of natural materials such as leaves, twigs, stones and fallen flowers. Ask an adult before picking flowers or taking cuttings. Try to collect a variety of SHAPES and COLOURS.

Can you use a combination of COMPLEMENTARY COLOURS?

Can you also use REPETITION and SYMMETRY?

Can you arrange them to make the whole COLOUR wheel?

Can you create a VALUE scale in one colour, from dark to light?

Can you create a pattern using WARM colours?

How about COOL colours?

Can you create interesting patterns using CONTRAST and VARIETY?

What else can you make?

Take a photo of your nature collage and share it on facebook or instagram using the hashtag **#heideathome** or send it to us at **programs@heide.com.au**.
